Ralph M. Reitan, PhD

---

1. Aita, J.A., Armitage, S.G., Reitan, R.M., & Rabinovitz, A. (1947). The use of certain psychological tests in the evaluation of brain injury. *Journal of General Psychology*, 37, 25-44.
2. Aita, J.A., & Reitan, R.M. (1948). Psychotic reactions in late recovery period following brain injury. *American Journal of Psychiatry*, 105, 161-169.
3. Aita, J.A., & Reitan, R.M., & Ruth, J.M. (1947). Rorschach's Test as a diagnostic aid in brain injury. *American Journal of Psychiatry*, 103, 770-779.
4. Boll, T.J., Heaton, R.K., & Reitan, R.M. (1974). Neuropsychological and emotional correlates of Huntington's Chorea. *Journal of Nervous and Mental Disease*, 158, 61-69.
5. Boll, T.J., & Reitan, R.M. (1970a). Deficits in adaptive abilities in Parkinson's disease. *Proceedings of the American Psychological Association*.
6. Boll, T.J., & Reitan, R.M. (1970b). Psychological test results of subjects with known cerebral lesions and Parkinson's disease as compared with controls. *Perceptual and Motor Skills*, 31, 824.
7. Boll, T.J., & Reitan, R.M. (1971). Review of Russell, E.W., Neuringer, C., & Goldstein, G. "Assessment of brain damage: A neuropsychological key approach." New York: Wiley-Interscience. *Professional Psychology*, 2, 410-413.
8. Boll, T.J., & Reitan, R.M. (1972a). Comparative ability interrelationships in normal and brain-damaged children. *Journal of Clinical Psychology*, 28, 152-156.

9. Boll, T.J., & Reitan, R.M. (1972b). The comparative intercorrelations of brain-damaged and normal children on the Trail Making Test and the Wechsler-Bellevue Scale. *Journal of Clinical Psychology*, 4, 491-493.
10. Boll, T.J., & Reitan, R.M. (1972c). Motor and tactile-perceptual deficits in brain-damaged children. *Perceptual and Motor Skills*, 34, 343-350.
11. Boll, T.J., & Reitan, R.M. (1973). Effect of age on the Trail Making Test. *Perceptual and Motor Skills*, 36, 691-694.
12. Boll, T.J., & Reitan, R.M. (in press). Verbal-Performance differences with lateralized brain lesions.
13. Davis, L.J., Hamlett, I., & Reitan, R.M. (1966). Relationships of conceptual ability and academic achievement to problem-solving and experiential backgrounds of retardates. *Perceptual and Motor Skills*, 22, 499-505.
14. Davis, J., & Reitan, R.M. (1966). Methodological note on the relationships between ability to copy a simple configuration and Wechsler Verbal and Performance IQs. *Perceptual and Motor Skills*, 22, 281-332.
15. Davis, J., & Reitan, R.M. (1967). Dysphasia and constructional dyspraxia items and Wechsler Verbal and Performance IQ in retardates. *American Journal of Mental Deficiency*, 71, 606-608.
16. Dikmen, S., & Reitan, R.M. (1974a). Minnesota Multiphasic Personality Inventory correlates of dysphasic language disturbances. *Journal of Abnormal Psychology*, 83, 675-679.
17. Dikmen, S., & Reitan, R.M. (1974b). MMPI correlates of localized structural cerebral lesions. *Perceptual and Motor Skills*, 39, 831-840.
18. Dikmen, S., & Reitan, R.M. (1976). Psychological deficits and recovery of functions after head injury. *Transactions of the American Neurological Association*, 101, 72-77.

19. Dikmen, S., & Reitan, R.M. (1977a). Emotional sequelae of head injury. *Annals of Neurology*, 2, 492-494.
20. Dikmen, S., & Reitan, R.M. (1977b). MMPI correlates of adaptive ability deficits in patients with brain lesions. *Journal of Nervous and Mental Disease*, 165, 247-254.
21. Dikmen, S., & Reitan, R.M. (1978). Neuropsychological performance in post-traumatic epilepsy. *Epilepsia*, 19, 177-183.
22. Dikmen, S., Reitan, R.M., & Temkin, N.R. (1983). Neuropsychological recovery in head injury. *Archives of Neurology*, 40, 333-338.
23. Doehring, D.G., & Reitan, R.M. (1960). MMPI performance of phasic and non-aphasic brain-damaged patients. *Journal of Clinical Psychology*, 16, 307-309.
24. Doehring, D.G., & Reitan, R.M. (1961a). Behavioral consequences of brain damage associated with homonymous field visual defects. *Journal of Comparative and Physiological Psychology*, 54, 489-492.
25. Doehring, D.G., & Reitan, R.M. (1961b). Certain language and non-language disorders in brain-damaged patients with homonymous visual field defects. *AMA Archives of Neurology and Psychiatry*, 5, 294-299.
26. Doehring, D.G., & Reitan, R.M. (1962). Concept attainment of human adults with lateralized cerebral lesions. *Perceptual and Motor Skills*, 14, 27-33.
27. Doehring, D.G., Reitan, R.M., & Kløve, H. (1961). Changes in patterns of intelligence test performances associated with homonymous visual field defects. *Journal of Nervous and Mental Disease*, 132, 227-233.
28. Finlayson, M.A.J., Johnson, K.A., & Reitan, R.M. (1977). Relationship of level of education to neuropsychological measures in brain-damaged and non-brain-damaged adults. *Journal of Consulting and Clinical Psychology*, 45, 536-542.

29. Finlayson, M.A.J., & Reitan, R.M. (1976a). Handedness in relation to measures of motor and tactile-perceptual functions in normal children. *Perceptual and Motor Skills*, 43, 475-481.
30. Finlayson, M.A.J., & Reitan, R.M. (1976b). Tactual perceptual functioning in relation to intellectual, cognitive, and reading skills in younger and older normal children. *Developmental Medicine and Child Neurology*, 18, 442-446.
31. Finlayson, M.A.J., & Reitan, R.M. (1980). Effect of lateralized lesions on ipsilateral and contralateral motor functioning. *Journal of Clinical Neuropsychology*, 2, 237-243.
32. Fitzhugh, K.B., Fitzhugh, L.C., & Reitan, R.M. (1961). Psychological deficits in relation to acuteness of brain dysfunction. *Journal of Consulting Psychology*, 25, 61-66.
33. Fitzhugh, K.B., Fitzhugh, L.C., & Reitan, R.M. (1962a). The relationship of acuteness of organic brain dysfunction to Trail Making Test performances. *Perceptual and Motor Skills*, 15, 399-403.
34. Fitzhugh, K.B., Fitzhugh, L.C., & Reitan, R.M. (1962b). Wechsler-Bellevue comparisons in groups with "chronic" and "current" lateralized and diffuse brain lesions. *Journal of Consulting Psychology*, 26, 306-310.
35. Fitzhugh, K.B., Fitzhugh, L.C., & Reitan, R.M. (1963). Effects of "chronic" and "current" lateralized and non-lateralized cerebral lesions upon Trail Making Tests performances. *Journal of Nervous and Mental Disease*, 137, 82-87.
36. Fitzhugh, K.B., Fitzhugh, L.C., & Reitan, R.M. (1964). Influence of age upon measures of problem solving and experiential background in subjects with long-standing cerebral dysfunction. *Journal of Gerontology*, 19, 132-134.
37. Fitzhugh, L.C., Fitzhugh, K.B., & Reitan, R.M. (1960). Adaptive abilities and intellectual functioning in hospitalized alcoholics. *Quarterly Journal of Studies on Alcohol*, 21, 414-423.

38. Fitzhugh, L.C., Fitzhugh, K.B., & Reitan, R.M. (1962). Sensorimotor deficits of brain-damaged subjects in relation to intellectual level. *Perceptual and Motor Skills*, 15, 603-608.
39. Fitzhugh, L.C., Fitzhugh, K.B., & Reitan, R.M. (1965). Adaptive abilities and intellectual functioning of hospitalized alcoholics: Further considerations. *Quarterly Journal of Studies on Alcohol*, 26, 402-411.
40. Forsyth, G.A., Gaddes, W.J., Reitan, R.M., & Tryk, H.E. (1971). Intellectual deficit in multiple sclerosis as indicated by psychological tests. *Research Monograph No. 23*. Victoria, BC (Canada): University of Victoria.
41. Grant, I., Mohns, L., Miller, M., & Reitan, R.M. (1976). A neuropsychological study of polydrug users. *Archives of General Psychiatry*, 33, 973-978.
42. Green, T.K., & Reitan, R.M. (1975). Effect of the rate of lesion development on behavioral adaptations in intracranial neoplasms. *Neuroscience Abstracts*, Vol. I, No. 1068, p. 692. Rockville, MD: Society for Neuroscience.
43. Heimburger, R.F., DeMyer, W., & Reitan, R.M. (1964). Implications of Gerstmann's Syndrome. *Journal of Neurology, Neurosurgery and Psychiatry*, 27, 52-57.
44. Heimburger, R.F., & Reitan, R.M. (1957). Testing for aphasia and related disorders. Mimeograph, 1-67.
45. Heimburger, R.F., & Reitan, R.M. (1961). Easily administered written test for lateralizing brain lesions. *Journal of Neurosurgery*, 18, 301-312.
46. Herring, S., & Reitan, R.M. (1986). Sex similarities in Verbal and Performance IQ deficits following unilateral cerebral lesions. *Journal of Consulting and Clinical Psychology*, 54, 537-541.
47. Herring, S., & Reitan, R.M. (in press). A longitudinal study of neuropsychological changes in multiple sclerosis.

48. Hom, J., & Reitan, R.M. (1982). Effect of lateralized cerebral damage upon contralateral and ipsilateral sensorimotor performances. *Journal of Clinical Neuropsychology*, 4, 249-268.
49. Hom, J., & Reitan, R.M. (1984). Neuropsychological correlates of rapidly vs. slowly growing intrinsic neoplasms. *Journal of Clinical Neuropsychology*, 6, 309-324.
50. Kløve, H., & Reitan, R.M. (1958). The effect of dysphasia and spatial distortion on Wechsler-Bellevue results. *Archives of Neurology and Psychiatry*, 80, 708-713.
51. Matthews, C.G., Guertin, W.H., & Reitan, R.M. (1962). Wechsler-Bellevue subtest mean rank orders in diverse diagnostic groups. *Psychological Reports*, 11, 3-9.
52. Matthews, C.G., & Reitan, R.M. (1961). Comparison of abstraction ability in retardates and in patients with cerebral lesions. *Perceptual and Motor Skills*, 13, 327-333.
